## **COVID-19 Volunteer Vaccination Verification Log**

Congregation:	 	 	
Vaccine Card Verifiers:	 	 	

Prior to the first day of hosting guest families in the Interfaith Hospitality Network shelter program of Family Promise of Greater Indianapolis, the congregation is required to verify that all volunteers coming into contact with guest families have full immunity from one of the available COVID-19 vaccinations for which the U.S. Food & Drug Administration has provided Emergency Use Authorization. These vaccines include Pfizer (two shots needed), Moderna (two shots needed), and Johnson & Johnson (one shot needed). Coordinators or other designated congregation personnel should review the COVID-19 vaccine cards (or other third party immunization records from a health professional) to ensure two weeks has passed since the final shot, and then initial below. Two verifiers are recommended if the congregation decides not to retain copies of the immunization record.

Full Immunity Achieved? Y/N (Date of final vaccine shot is at least two weeks prior to date of vaccine card check)	Date of Vaccine Card Check	Initials of Verifier #1	Initials of Verifier #2
	(Date of final vaccine shot is at least two weeks prior to date of	(Date of final vaccine shot is at least two weeks prior to date of	(Date of final vaccine shot is at least two weeks prior to date of
